There are four scattered verses stating generally that Quran contains all the examples, allegories, or similitudes that we need. These verses are 17:89, 18:54, 30:58, & 39:27. By adding the verse numbers of these four crucial verses, the total is 228, or \( 19 \times 12 \).

\[ 89 + 54 + 58 + 27 = 228 = \boxed{19} \times 12. \]
