More Confirmations of Basmalahs in Quran

In the previous issue of Submitters Perspective, every one of the 19 letters of Basmalah was further confirmed by God's will, with the unique mathematical relationships of Basmalahs with the sura (chapter) numbers of Quran. These unique discoveries based on the number 19 are given below:

<table>

</tbody>
</table>

The discoveries on the left and on the right are also valid separately for the odd and even numbered suras of Quran. For example, for the one on the left, if we take only the odd numbered suras, the total becomes 32547 (19x1713). For the even numbered suras, the total is 33117 (19x1743). Likewise, for the table on the right, if we take only the odd numbered suras, the total becomes 33113 (19x1743). For the even numbered suras, the total is 330% (19x1743). Please be to God.

To appreciate the above discoveries better, the reader is reminded of the following facts about the Basmalah:
2. The missing Basmalah at the beginning of Sura 9 is compensated by an extra Basmalah in Verse 30 of Sura 27. Therefore, Sura 27 has two Basmalahs in it and the total number of Basmalahs in Quran is maintained as 114, the same as the number of suras.

3. The Basmalahs at the beginning of the suras have no assigned verse numbers. The only exception is the very first Basmalah in Quran. This Basmalah is in the first sura entitled "The Key". It is the first verse in this sura.

The Basmalahs without an assigned verse number are assumed to have a verse number of zero in the above discoveries.

Like the previous ones, these discoveries are further blessing from God to help strengthen the believers' hearts.

Thank you... The loving support we have received from all parts of the world after the Messenger of God's departure has been truly touching and a great blessing from God. May God Swat you all for that support and may He keep us all in His right path.

QURAN: THE FINAL TESTAMENT

"They want to put out God's light with their mouths, but God insists upon perfecting His light, in spite of the disbelievers."

9:32

IDOL WORSHIPPERS DECLARE WAR ON GOD

A messenger had come to you...

The idol worshipers of today are not any different than the idol worshipers of the past generations. A messenger came to them with profound signs, similar to the messengers in the past, inviting them to abandon their idols. He warned everyone who believes in God about the consequences of falling into idol worship. He presented to the people who call themselves Muslims (Submitters) the clear signs and commandments in Quran to point out that they fell into idolatry because they no longer worshipped God alone, nor do they follow Quran alone. He then stated the following facts:

1. The majority of the so-called Muslims today are idolizing the prophet Muhammad against his own will, similar to the Christians’ idolization of Jesus, perhaps in a more subtle way. These people never utter God’s name without mentioning the name of the prophet or a saint with it. Obviously, they are not content with God alone. Quran indicates that such people do not really believe in the Hereafter even though they may claim to do when God alone is mentioned, the hearts of those who do not believe in the Hereafter shrivel with aversion. But when others are mentioned besides Him, they rejoice” (2:97-100).

2. The Muslims abandoned Quran. They follow other sources besides Quran for religious guidance. These sources, which are falsely attributed to the prophet Muhammad, are full of contradictions to Quran as well as blasphemies against God, including His name. Furthermore, Quran states that everyone is responsible for his beliefs, and that rejecting the Hereafter leads to disbelief in God. If anyone becomes negligent in looking for the right path, if his Lord is patient with anyone, He will not ask of anyone any wage but simply invited them to observe God’s commandments. Obviously, this message was contrary to their wishes. Therefore, they plain refused to hear or to follow what he advocated. “It is not a fact that whenever a messenger went to you with anything you did not like, you remained arrogant, and either rejected him, or killed him?” (2:8).

Perennial Disease

The idol worshipers are attached to their idols so much so that they love their idols more than they love God. They cannot abandon their idols and turn to God. They also cannot accept the idea that their idols are useless or powerless to them. Their whole life is dependent upon their idols and idolatry. Thus, they feel that they cannot do without them. They insist on the fact that they learned their ways from their parents and ancestors and that they will continue to follow their footsteps. This is recorded in Quran: “They said ‘Did you come to make us worship God alone, and abandon what our parents used to worship?’” (7:90). The answer is also in Quran: “What if their parents knew nothing, and were misguided?” (7:100). Furthermore, Quran states that everyone is responsible for himself. This is no excuse for following the parents blindly and not seeking the truth. “You shall not accept any information, unless you verify it for yourself. I have given you the hearing, the seeing, and the brain, and you are responsible for using them” (7:179).

Why do the idol worshipers fight God?

The Messenger of the Covenant brought, by God’s leave, the overwhelming mathematical proof that Quran is the word of God and that every single letter in it is distinctly preserved. The mathematical composition in Quran is so vast and intricate that God Himself says, “This is one of the great miracles” (7:43). This is something everybody who calls himself or herself Muslim (Submitter) should rejoice for. It is a blessing from God to humanity since the people can now actually examine and verify the physical proofs of Quran. They do not have to believe in Quran on faith. They will have full confidence that every word in Quran is from God, the Almighty. Why then do the idol worshipers vehemently oppose the Quranic miracles and literally fight them? Because they abandoned Quran and the messenger for the sake of their idols; indeed, they abandoned God! "I say, I do not ask you for any money. All I ask is to help you find the right path, if this is what you choose" (2:57).
The Quran teaches us that whenever God sent a warner or a messenger to any community, the people almost unanimously rejected him. Some messengers were killed, some were attack-
ked, and some were expelled out of their homes. Just like the disbelievers of the past, today's Mohammedans committed the same old crime. They rejected God's miracle of Quran, they rejected God's messenger and they rejected true Quran. In the past nine
teen years, Dr. Rashad Khalifa preached the true Islam authorized by God. This is the same message that every previous messenger had preached: Worship God Alone. For those who do not take heed, God's system never changes. We learn from Quran that every community that rejected their messenger was annihilated:

**N一回事**

The people of Noah disbelieved the messengers. Their brother Noah said to them, "Would you not be righteous? I am an honest messenger to you. Observe God and obey me. I do not ask you for any wage: my wage comes from the Lord of the universe. Do you think you will be left forever, secure in this state? You enjoy gardens and springs. And crops and dates with delicious fruits. And you come out of the mountain the next morning, million more. Therefore you shall observe God, and obey me." (26:140-150).

Dr. Rashad Khalifa was God's Mes-

senger of the Covenant. He came to

 purify, unify and consolidate God's religion. Submission. He sufficiently warned all the idol worshippers, such as Dr. Aasad Baasod, Islamic University of Chicago, who rejects the miracles of Quran, but is silent against those with such blasphemous ideas as that Quran is an Internal ilalization of Prophet Muhammad. Why is it so difficult for these people to understand the truth, even though Arabic is a foreign language to them and the language in which Quran was revealed? The

answer lies in the following Quranic verses:

This is an honorable Quran. In a protected book. None can get it except the sincere, 56:77-79. We then realize it like a foreign language in the hearts of the guilty. As such, they cannot believe in it until they see the painful retribution. It will come to them suddenly when they least expect it. They will then say: "Can we have a reprieve?" Did they not challenge our retribution? If you see, we allowed them to enjoy for years. Then the retribution promised for them came to pass. All their resources did not help them. We never asked them for any wage; nor did we promise them any wages. This is a remembrance, for we will never jurejudged. 26:140-200.

Necessary is the knowledge that this retribution is imminent for those people who disregarded God's message and reject His messenger. In the March 1990 issue of S.P, the Messenger of the Covenant had a chart similar to the retribution chart in the Quran is near. The following is the exact quotation from that issue:

As prophesied in 44:18-19:

- A massive atomic will hit somewhere in the Middle East.
- The resulting heat will burn living organisms within a 100 mile radius.
- That devastation will envelop the Arab world, main opponent of God, His prophet, and his Messenger of the Covenant (9:79, 21:37).
- The Prophet prophesy in 44:16-18 will come to pass: A giant cloud will envelop the earth and obscure the sun for a hundred years.
- In fullness of time, the Arabs will mock and ridicule this prophesy.
- When will this happen? I will not tell where but I have a strong feeling that this will take place before the end of 1990.

Based on the above statements and the killing of the Messenger of the Covenant, the retribution might be coming soon. Some of our brothers wrote even further and proposed the exact date of this retribution, as well as the place. Although it is a myth, it might be worth mentioning here, because it comes with some mathematical signs which these brothers consider overfulfilling. This idea originally came from brother Azhar Khan. His date for the expected retribution is May 19, 1990. He has the following facts to support this date:

1. 5 + 19 = 2019 (19 x 106) Solar date 10 + 24.1410 + 1444 (19 x 24 x 4) Lunar equivalent

2. The difference between the above totals (20144) is 5777.

3. There are 109 days between January 31, 1990 and May 19, 1990, including both days. If we write 131990 followed by 109, the resulting number is divisible by 19: 131990 109 = 1309901127025

If we write the gematrical value of Rashad Khalifa's followed by 109, the resulting number is also divisible by 19: 502725 19 = 267611711

4. If we write the dates of the above 109 days side by side, we get a long number of digits. This number which is demonstrated below is also divisible by 19: 131990 2 19090 1410 29390 15 19090 5 1990

Lunar date will also give divisible number if we start the number with 131990 as follows:
