Happiness is Submission to God Alone

No Conjecture *continued*

It is ironic that Verse 9:129 happens to contain the statement *La elaha ella Hoo*. By including this verse in the count, all the mathematical facts mentioned above would have disappeared. Of course, the above facts are still the tip of the iceberg. There is much more mathematical evidence against these 'two verses', and much more is being discovered by God's grace. For more information about other mathematical facts, refer to Appendix 24 of "Quran: The Final Testament, Authorized English Version, translated from the original by Rashad Khalifa, Ph. D."

It should be noted that these two verses have historically been suspect since the time of the third Caliph 'Uthman. Our efforts to check with the oldest available copies of the Quran have been futile. One researcher who looked at one of the oldest copy of the Quran in the *Suleymaniye Library, Istanbul, Turkey*, noticed that the last page of Sura 9, as well as the first page of Sura 10, had been removed from the Quran. We also received information, which we have not verified ourselves yet, that the copy of the Quran in Smithsonian Museum, Washington, D.C., has the same problem. The question is, why? Did the people who handed down the history to us have something to hide?

God says in Verse 15:9 that "Surely, we have revealed this message, and surely, we will preserve it." One can now appreciate better the meaning of this verse. Because of the mathematical composition of the Quran, it is indeed impossible to tamper with the Quran, then, now or ever. No falsehood can enter it (41:42).

raise God. There is no god except He.

Abdullah Arik

New Line of Communication

Just Fax It!

By God's grace, we now have a fax machine through the generosity of one of our family of submitters. The machine is available for your incoming faxes 24 hours a day (unless, of course, the phone is busy). The fax number is the same number as the telephone number, (602) 323-7636. The fax machine is able to automatically detect an incoming fax from a regular phone call. However, some faxes that are sent manually cannot be received automatically because some older model fax machines do not send a fax tone in manual mode. Therefore, if there is a problem sending a fax because your fax machine is not sending a fax tone, try adding *19 at the end of our number when dialing.

You can now fax your questions, comments, orders for the publications, articles for the newsletter, or anything you would like to bring to our attention. God willing, we will respond to you as quickly as we can.

1995 Conference

We are planning to hold next year's United Submitters Conference in Tucson, Arizona, God willing. The preliminary date is set to August 18-20, 1995. However, we want to hear from you, especially if these dates are not suitable for you. Please let us know any suggestions you may have as soon as possible for we would like to finalize the conference dates by the end of this year.

If we do not hear from you, we will assume the above dates are acceptable with everyone.

Correction

In the previous issue of the Submitters Perspective, the last sura revealed, Sura 110 (Triumph), was reported to consist of 76 (19x4) Arabic words. The correct number should have been 19 words.

To refresh our memory and see the interesting link between the first and the last revelation, we report the facts on the first revelation below once more:

The first revelation (Sura 96:1-5) consists of 19 Arabic words, 76 (19x4) letters. The entire Sura consists of 19 verses and 304 (19x16) letters.

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

In the name of God, Most Gracious, Most Merciful

Submitters Perspective

Monthly Bulletin of United Submitters International Published by Masjid Tucson Sept. 1994 Rabi II 1415 Vol. 10 No. 9

No Conjecture, No Doubt

لَا إِلَهَ إِلَّا هُوَ

There is no god except He

The Basis of Islam is Mathematically Coded in the Quran by Almighty God

The first pillar of Islam (Submission) is clearly stated in the Quran: "God bears witness that there is no god except He, and so do the angels and those who possess knowledge. He is the absolute god. There is no god except He, the Almighty, the Wise." [3:18]

The statement "There is no god except He" (in Arabic, *La elaha ella Hoo*) is very crucial in one's submission to God alone since the majority of people fail their test in this life by mentioning the name of Jesus, Muhammad, or other names beside the name of God. They are not satisfied by God alone, and do not perceive their idolatry even if they are reminded. Their insistence in mentioning other names beside God is a sign of disbelief in the Hereafter deep in their hearts. This is a Quranic fact: *When God alone is mentioned, the hearts of those who disbelieve in the Hereafter shrink with aversion, but when others are mentioned with Him, they become satisfied.* [39:45]

Many Messengers, One Message

All the messengers of God since the time of Adam brought the same message to the people: "There is only one god. You shall not worship except the one God." The verses given below from different scriptures exemplify this fact very clearly:

One of the scribes came, and having heard them reasoning together, and perceiving that he answered them well, asked him, which is the first commandment of all? And Jesus answered him. The first of all commandments is:

"Hear, O Israel; The Lord our God is one Lord: And thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind, and with all thy strength: This is the first commandment. [Mark 12:28-30]

I am the Lord thy God, which brought thee out of the land of Egypt, from the house of bondage. Thou shalt have none other gods before me. [Deut. 5:6-7]

We did not send any messenger before you except with the inspiration: "There is no god except Me; you shall worship Me alone." [Quran 21:25]

Even though the message of worshipping God alone is clear in the scriptures, the majority of people who believe in God fall into idol worship (12:106). This is because Satan, who vowed to deceive the human beings, found most of them readily following his suggestions, instead of God's commandments. He thus diverted multitudes of people from the straight path of God.

Corrupted Religions

As a result of not upholding God's revelations, and falling into Satan's trap, the Jews, the Christians, and the Muslims have been deceived away from the true message brought to them by the prophets Moses, Jesus and Muhammad. The majority of Jews today follow such human-made teachings as the *Mishnah* and the *Gemarah*, instead of upholding the Torah as the only source of religious teachings. The majority of Christians follow the human-made instructions of the *Nicene Conference* that was held more than 300 years after Jesus. During this conference, the blasphemous concept of "Trinity" was formalized.

The majority of Muslims today fell into the same Satanic trap that the Jews and the Christians did. Two hundred years after prophet Muhammad's death, they started following the teachings falsely attributed to the prophet, instead of upholding the Quran alone. These teachings, which are called *Hadith* and *Sunnah*, gradually became an integral part of the religion even though most of them contradict the Quran.

As a result of abandoning God's revelations in their scriptures in favor of man-

continued on the next page

No Conjecture *continued*

made religious teachings, the people of the scripture today are divided into many sectarian groups, each happy with what they have, each claiming to monopolize the way to salvation. However, the Quran teaches us that the only religion acceptable to God is "Islam" (3:19). The Quran also teaches us that "Islam" is not the name of the religion; it is a description. Islam is total submission and devotion to God alone. Anybody who submits himself to the will of God alone is therefore called a "Muslim" (Submitter).

We learn from the Quran that all practical duties of Islam—Contact Prayers (Salat), Obligatory charity (Zakat), Fasting, Hajj pilgrimage, came through Abraham. We also learn that Abraham was the first to use the word "Muslim" (Submitter) for those who worshiped God alone (22:78). God uses the word "Muslim" in the Quran many times for those messengers and righteous people who lived before Muhammad. For example, the disciples of Jesus were called Muslims (5:111).

God sent the Quran (Final Testament), and then His messenger of Covenant, who was prophesied in the scriptures, to consolidate all the religions under one message: Worship God alone. There is no god except He. He is the source of guidance, He is the source of salvation. To Him alone we will all be returned.

Mathematical Coding of

لَا إِلَهَ إِلَّا اللَّهُ

"There is no god except He"

The statement "There is no god except He" (in Arabic, *La elaaha ella Hoo*) is so crucial that God has placed it in specific verses in the Quran as part of the 19-based mathematical design of His Final Testament to humanity. The following facts summarized below includes the new findings as well as the previous ones that are reported either in Appendix 1 of "Quran: The Final Testament, Authorized English Version, translated from the original by Rashad Khalifa, Ph. D." or in July 1990 issue of Submitters Perspective:

Fact 1. There are 19 suras (chapters) in which *La elaaha ella Hoo* is mentioned.

Table 1 lists these 19 suras, the verses where *La elaaha ella Hoo* occur, and the number of occurrences of this statement in each sura.

Sura No.	Verses "La elaaha ella Hoo" occur	Freq. of "La elaaha ella Hoo"
2	163, 255	2
3	2, 6, 18 (2)	4
4	87	1
6	102, 106	2
7	158	1
9	31	1
11	14	1
13	30	1
20	8, 98	2
23	116	1
27	26	1
28	70, 88	2
35	3	1
39	6	1
40	3, 62, 65	3
44	8	1
59	22, 23	2
64	13	1
73	9	1
507	1592	29

507 + 1592 + 29 = 2128 (19 x 112)
507 1592 29 = 19 x 26692591

Fact 2. If we add the total of sura numbers (507), the total of the number of verses in which *La elaaha ella Hoo* is mentioned (1592), and the total number of occurrences of this statement (29), the result is a multiple of 19:

507 + 1592 + 29 = 2128 (19x112)

Fact 3. Instead of adding 507, 1592, and 29 together, if we concatenate them, the resultant number is also a multiple of 19:

507 1592 29 = 19 x 26692591

Table 2 lists the same 19 suras in which *La elaaha ella Hoo* is mentioned, the number of verses in these suras, and the number of occurrences of this statement in each sura.

Fact 4. If we add the total of sura numbers (507), the total of the number of verses in these suras (2086), and the total number of occurrences of *La elaaha ella Hoo* (29), the result is a multiple of 19:

507 + 2086 + 29 = 2622 (19x138)

Fact 5. Instead of adding 507, 2086, and 29 together, if we concatenate them, the

Sura No.	Number of Verses in the Sura	Freq. of "La elaaha ella Hoo"
2	286	2
3	200	4
4	176	1
6	165	2
7	206	1
9	127	1
11	123	1
13	43	1
20	135	2
23	118	1
27	93	1
28	88	2
35	45	1
39	75	1
40	85	3
44	59	1
59	24	2
64	18	1
73	20	1
507	2086	29

507 + 2086 + 29 = 2622 (19 x 138)
507 2086 29 = 19 x 26695191

resultant number is a multiple of 19:

507 2086 29 = 19 x 26695191

Fact 6. Put the number of occurrences of *La elaaha ella Hoo* in each of the 19 suras side by side. The result is a 19-digit number which is a multiple of 19:

2412111121211131211
= 19 x 126953216901112169

Fact 7. Take all the verses in which *La elaaha ella Hoo* is mentioned (Table 1, second column), and put their numbers side by side for all of the 19 suras. The result is a 54-digit number which is also a multiple of 19:

Sura 2	Sura 3	Sura 4	...	Sura 73
163 255	2 6 18	87	...	9

= multiple of 19

Fact 8. Take the verses listed in the previous fact (Fact 7). Instead of putting the actual verse numbers, put the sum of digits of these verses for all of the 19 suras. For example, for Sura 2, you would put 10 for 163 (1+6+3=10), and 12 for 255 (2+5+5=12). For Sura 3, you would put 2, 6, and 9 (1+8).

continued on the next page

No Conjecture *continued*

You repeat this for each of the 19 suras. The result is a 35-digit number which is also a multiple of 19:

Sura 2	Sura 3	Sura 4	...	Sura 73
10 12	2 6 9	15	...	9

= multiple of 19

Fact 9. Take the numbers listed in the previous fact (Fact 8). Add the numbers that belong to each sura. Therefore, instead of putting 10 and 12 for Sura 2, put 22 (10+12), and instead of putting 2, 6, 9 for Sura 3, put 17 (2+6+9).

You repeat this for each of the 19 suras. The result is a 27-digit number which is also a multiple of 19:

Sura 2	Sura 3	Sura 4	...	Sura 73
22	17	15	...	9

= multiple of 19

Fact 10. Put the number of verses of the 19 suras (Table 2, second column) in which *La elaaha ella Hoo* occurs side by side. For example, the first sura in which *La elaaha ella Hoo* occurs is Sura 2 which has 286 verses. Therefore, we put 286 first. We do this for all of the 19 suras.

The result is a 47-digit number which is also a multiple of 19:

Sura 2	Sura 3	Sura 4	...	Sura 73
286	200	176	...	20

= multiple of 19

Fact 11. For each of the 19 suras in which *La elaaha ella Hoo* is mentioned, put the following side by side, starting with 29 for the total number of occurrences of this statement:

1. The number of occurrences of *La elaaha ella Hoo* in the sura,
2. The numbers of the verses in this sura in which *La elaaha ella Hoo* is mentioned.

For example, the first sura in which *La elaaha ella Hoo* occurs is Sura 2. There are two occurrences of *La elaaha ella Hoo* in this sura. One occurs in Verse 163, the other occurs in Verse 255. Therefore, we put 2, for the two occurrences, and 163, 255 for the two verses in this sura. We do this for all of the 19 suras.

The result is a 75-digit number which is a multiple of 19:

1st Sura	2nd Sura	19th Sura
Sura 2	Sura 3	Sura 73
29 2 163 255	4 2 6 18	...
		1 9

= multiple of 19

Fact 12. In the above fact, there are no sura numbers involved. Therefore, one could ask how we would know if these verses belonged to a particular sura. How about including the sura numbers in the above fact?

No problem. Let us insert the sura numbers before the numbers representing the sura in the above fact, for each of the 19 suras in which *La elaaha ella Hoo* is mentioned. The result is a 107-digit number which is also a multiple of 19:

1st Sura	2nd Sura	19th Sura
Sura 2	Sura 3	Sura 73
29 2 2 163 255	3 4 2 6 18	...
		73 1 9

= multiple of 19

Fact 13. For each of the 19 suras in which *La elaaha ella Hoo* is mentioned, put the following side by side:

1. The sura number.
2. The number of verses of the sura,
3. The number of occurrences of *La elaaha ella Hoo* in this sura,
4. The numbers of the verses in which *La elaaha ella Hoo* is mentioned.

For example, Sura 2 has 286 verses, *La elaaha ella Hoo* is mentioned in this sura twice, the first one in Verse 163, the second one in Verse 255. Therefore, for Sura 2, we put 2, 286, 2, 163, and 255 together. We repeat this process for all suras in which *La elaaha ella Hoo* is mentioned. For Sura 73, the last sura in which *La elaaha ella Hoo* is mentioned, we put 73, 20, 1, and 9 together. (Refer to Tables 1 and 2 for these numbers).

If we put all the numbers together in this fashion for all the 19 suras in which *La elaaha ella Hoo* is mentioned, the result is a 152 (19x8)-digit number which is also a multiple of 19:

1st Sura	2nd Sura	19th Sura
Sura 2	Sura 3	Sura 73
2 286 2 163 255	3 200 4 2 6 18	...
		73 20 1 9

= multiple of 19

Fact 14. For this fact, we include all the suras of the Quran from start to end, to make it comprehensive of the entire Quran. Thus, for each of the 114 suras in the Quran, we put the following side by side:

1. The sura number.
2. The number of verses of the sura,
3. The number of occurrences of *La elaaha ella Hoo* in this sura.

For example, Sura 1 has 7 verses. There

is no (zero) occurrence of *La elaaha ella Hoo* in this sura. Therefore, for Sura 1 we put 1,7,0 together. Sura 2 has 286 verses, *La elaaha ella Hoo* is mentioned twice. Therefore, for Sura 2, we put 2, 286, 2 together. We repeat this process for all suras in the Quran. The resulting number of all suras put together is a 575-digit number which is also a multiple of 19:

Sura 1	Sura 2	Sura 3	...	Sura 114
1 7 0	2 286 2	3 200 4	...	114 6 0

= multiple of 19.

This fact not only assures us of the correct number of verses in the 19 suras in which *La elaaha ella Hoo* is mentioned, but it also verifies the number of verses of the remaining 95 suras of the Quran.

Fact 15. The first occurrence of *La elaaha ella Hoo* is in Verse 2:163, the last occurrence is in 73:9. If we add the sura numbers, plus the number of verses, plus the sum of all the verse numbers from the first occurrence of *La elaaha ella Hoo* to the last occurrence, the total comes to 316502, or 19 x 16658.

What does all that mean?

The specific mathematical coding of the statement *La elaaha ella Hoo* "There is no god except He" shows us how important this statement is. This is the first pillar of all monotheist religions, practiced by those who submit to God alone. Mentioning any other name beside God is not approved by God.

Thus the correct *Shahadah* (the statement of faith) is and has always been *La elaaha ella Hoo* "There is no god except He" or *La elaaha ella Allah* "There is no god except God." (3:19, 39:45)

Secondly, this is a further proof that the Quran is the word of God, and every element in it is mathematically composed—the suras, the verses, the key words, the key statements, and many other things. It is a blessing for those who want to take heed and for the believers since it strengthens their faith. On the other hand, it exposes those who have doubts in their hearts (74:31).

Thirdly, this is also another proof that Sura 9 has 127 verses, not 129. The traditionally accepted verses 9:128 and 9:129 indeed do not belong to the Quran. Here is why:
